

Having trouble deciding on a fertility bracelet? We recommend the Juno and Sweet Pea as the most potent fertility bracelets, as they have a full compliment of the stones.

We can accomodate any changes to stones or charms, so please make a note when checking out. When selecting your size, we advise choosing a bracelet 1" larger than your wrist size. If you would like a size outside those offered, just ask. Each bracelet is made to order.

All bracelets are ready to be given as a gift, in an organza bag and come with an information sheet explaining the meanings of all the stones. We can add a gift card too with your message

In addition to our fertility range, we also offer assorted styles of jewellery, bridal gifts, custom shower favours and wedding table decor. If you have an upcoming party, wedding or shower we would love to help with the favours! We offer unique themed crackers as favours (which can double as place settings), and can do bulk orders of earrings and pendants for baby and bridal showers, all wrapped and ready to give! We can usually accommodate any quantity.

To keep things simple, we do not charge for delivery.
